

PROFESSIONAL SUMMARY

Result-driven full stack MERN developer with over 1 year of hands-on experience designing, developing, and deploying scalable web applications. Proficient in architecting robust RESTful APIs with Node.js/Express, managing NoSQL database schemas with MongoDB, and crafting interactive frontends with React.js. Experienced in handling the entire application life-cycle and deploying production-ready solution on AWS infrastructure.

TECHNICAL SKILLS

Full-Stack Frameworks:	React.js, Node.js, Express.js JavaScript(ES6+), HTML5, CSS3
Database Management :	MongoDB, NoSQL Database Design, Mongoose ODM
Cloud & DevOps:	AWS(EC2, S3, Amplify), Docker, Git, GitHub
Styling & Tools:	Tailwind CSS, Responsive Web Design, RESTful APIs, Containerization

Upwork Freelance Status Actively managing and delivering UI solutions for international clients (including custom frontends for Singapore-based businesses). Recognized for translating client business rules into high-performance visual experiences with precise detail alignment.

FEATURED FRONTEND & WEB PROJECTS

Greencart – Interactive Responsive E-Commerce Interface

GitHub Showcase

Frontend Developer | React.js, Tailwind CSS

- Designed and executed a modern, fully responsive user interface utilizing custom Tailwind workflows, ensuring absolute cross-browser compatibility and fluid layouts across all devices.
- Maintained strict version control records via GitHub, implementing clean documentation practices for component design, frontend updates, and collaborative code structures.

Auth Webapp – An Authentication MERN WebApp

GitHub Showcase

Full Stack & Interface Architecture | React.js, AWS

- Engineered an end-to-end user authentication system utilizing the MERN stack with secure JWT session handling and protected API routing pathways.
- Coordinated frontend state-management workflows with REST APIs hosted on robust AWS infrastructure (EC2), adhering perfectly to professional structured implementation practices.
- Conducted targeted frontend debugging, visual alignment optimization, and rigorous problem-solving to resolve intricate browser-rendering edge cases.

FREELANCE EXPERIENCE

Independent Frontend Developer & UI Contractor

March 2025 – Present

Upwork Platform Engagement | Remote

- Spearheaded frontend modifications, style system modernizations, and user experience optimizations for various clients, including a dedicated web architecture overhaul for a Singapore-based, Finland-based enterprise.
- Translated wireframes and visual concepts into responsive, high-fidelity web pages independently, validating structural design and semantic HTML/CSS code formatting.
- Managed end-to-end professional workflow cycles, layout reviews, and remote communication strategies to alignment-heavy specifications. My upwork profile url: [upwork.com/freelancers/~01919b19ebded99edb](https://www.upwork.com/freelancers/~01919b19ebded99edb)

EDUCATION

B.Sc IT in Cloud Computing

Graduation: 2026

Specialization: Cloud and Application Development | Ahmedabad, Gujarat

- Deep-dive curriculum covering Cloud Computing, and Modern Web Systems with an active focus on programmatic complexity analysis and agile implementation.
